Suspended Theater®

Bringing the sensation of flight to life

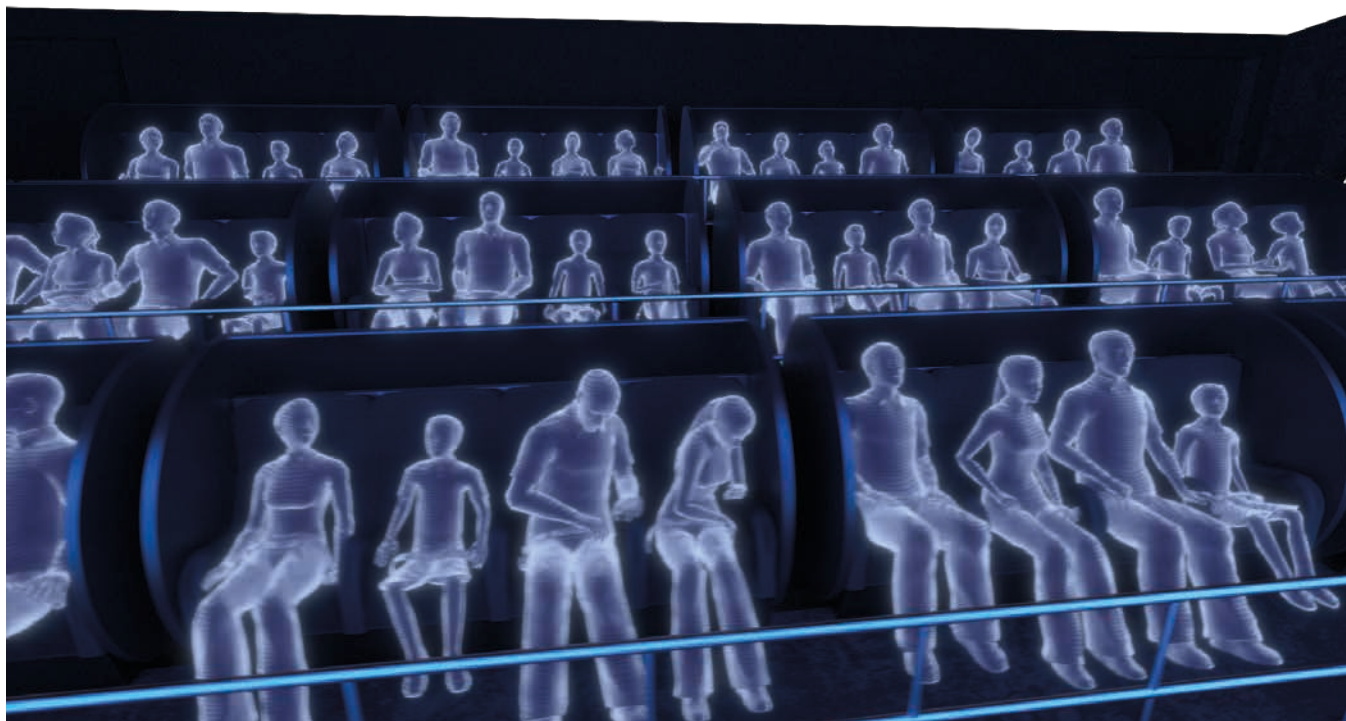

In partnership with:

Connecting What's Needed with What's Next™

Suspended Theater®

Bringing the unique sensation of flight to life

Combining the creative genius of **Falcon's Creative Group**, the audio-visual expertise of German special effects specialists **Kraftwerk**, and the engineering and manufacturing horsepower of **Oceaneering**, the future of immersive 3D and 4D theaters has arrived.

Suspended Theater is the most unique theater system available for theme parks and attractions. It brings to life a reveal experience by capturing thrilling motion sensations with three degrees of freedom. Suspended Theater transports guests through amazing landscapes, real or imagined.

Oceaneering engineered this ride system to be simple, safe, and reliable by focusing on customizable special effects, high capacity, and low operating costs. Suspended Theater attractions take your guests on unforgettable journeys that will bring them back again and again.
